

What is the Commission on Workforce?

The Commission on Workforce is dedicated to enhancing the skills and capabilities of our community college employees who play a crucial role in shaping the workforce of Alabama. This dynamic group focuses on professional development, collaboration, and innovative training solutions that equip staff with the tools needed to foster a thriving educational environment. By bridging the gap between education and industry, we ensure that our employees are well-prepared to meet the demands of today's ever-evolving job market, ultimately benefiting our students and the communities we serve.
